Primum lounge chair, p. 64

// TOUCH ALWAYS TELLS THE TRUTH

The first touch will tell you whether an encounter will be short-lived or something more. This applies not only for people, but for products as well. That's the thing about our sense of touch – it immediately reveals what we truly feel. Author Margaret Atwood captures it beautifully: "Touch comes before sight, before speech. It is the first language and the last, and it always tells the truth."

So when you are finished browsing through this catalogue, do yourself a favour and visit our showroom in Copenhagen or find your nearest Bent Hansen dealer on our website benthan-sen.net. If you like the pictures, we promise that the real-life experience of our designs will not disappoint you.

We invite you to feel the quality of the materials, sense the fibres of the fabric, caress the surface of the leather. Remember: looks can be deceiving, but your fingertips can reveal the truth about a product.
